

SD-Series Automatic Voltage Regulator Under & Over Voltage Protection (Beyond 130V & 260V)

Model	Capacity	Input Voltage	Output Voltage	Output Stability	AMPS
SD-500C	500VA	130 -260V AC	220 / 110V AC	± 1 to 2 %	2.3
SD-1000C	1000VA	130 -260V AC	220 / 110V AC	± 1 to 2 %	4.6
SD-1500C	1500VA	130 -260V AC	220 / 110V AC	± 1 to 2 %	6.9

Technical Specification

Response time:	0.5 sec. against 10% input voltage deviation
Output Voltage:	110V & 220V (+- 1 to 2%)
Wide Input Range:	130V~260V (Suspend beyond this value)
Wave form:	Pure sine wave
Surge Protection:	Optional
Frequency:	50Hz / 60 Hz

Features

- Short circuits & Overload Protection
- Servo motor control
- Quick response time
- No wave form distortion
- High Efficiency
- Soft Start

Application

- Computers / Photocopy machines
- Home appliances
- Medical equipment
- Security & communication equipment
- TV,DVD, Radio station & Telephone exchange
- Cash registers
- Measuring devices etc.
